Learning to Navigate Resources and Data in the Health Sciences Center Library
Public Health Informationists

Carolyn Brown
Barbara Abu-Zeid
Shenita Peterson
Objectives

- To introduce specialized resources and services that can lead to successful assignments
- To demonstrate effective techniques to quickly access resources
- To partner with you to develop competencies needed in your career
Outline

- Emory Libraries at a Glance
- Access
- Publications, Papers, and more
- Data Acquisition/Analysis
- Information Management
- Next Steps
Woodruff Health Sciences Center Library
Hours

Monday-Thursday: 8AM-12AM
Friday: 8AM-7PM
Saturday: 10AM-7PM
Sunday: Noon-12AM

Location
Always Start at the Library’s website to access Emory Library subscriptions
For off campus access to this resource, enter your Emory Network ID and password below.
If you forgot or need help with your Emory Network ID or password, contact Client Services at 404-727-7777

Related citations in PubMed

- Computing outreach initiatives for medical literacy [J Med Syst. 1993]
- Review: Everything you have ever wanted [Biochim Biophys Acta. 1997]
Articles

- Abstracts
- Book Chapters
- Conference Proceedings
The eJournals @ Emory University Libraries database includes online, full text journals to which Emory's libraries have paid subscriptions, either directly through the publisher or through licensed databases and other resources to which Emory has access.
PubMed is the National Institutes of Health's premier database on biomedical and life sciences topics.
Web of Science/Web of Knowledge

A collection of multidisciplinary citation databases, including Science Citation Index and Social Sciences Citation Index.
PychINFO

Contains citations and summaries of journal articles, book chapters, books, dissertations, and technical reports from the professional and academic literature in psychology and related disciplines. Coverage: 1887-present
Indexes literature in fields of reproductive health, family planning, and population policy for all countries, and covers related topics such as AIDS, maternal and child health, and demography for developing countries.
Top Public Health Journals

- Epidemiologic Reviews
- Environmental Health Perspectives
- International Journal of Epidemiology
- Epidemiology
- Bulletin of the World Health Organization
- Cancer Epidemiology Biomarkers & Prevention
- Annual Review of Public Health
- Nutrition Research Reviews
- Lancet
Published Information Services

We can help you:

- Develop strategies for literature reviews
- Search for peer-reviewed publications
- Provide background information, country profiles, and public policy information
- Discover reports and unpublished studies (grey literature)
- Select and organize resources for thesis or special projects
- Participate in systematic reviews
Specialized Software Lab

Located on the Plaza Level
Open during library hours
Data Analysis Software

- Epi Info
- SAS
- R
- STATA
- SPSS
Geospatial Software

ArcGIS
ENVI
terraGo
Google Earth
GeoDa
SaTScan

Software for the spatial, temporal, and space-time scan statistics
Productivity Software
http://whscldatablog.wordpress.com/
Data Services

- Locate publicly available health datasets
- Identify software/tools for working with data
- Find resources about quantitative and qualitative data analysis software
- Search for research instruments, such as quality of life or mental health surveys
Information Management

EndNote
EndNote is a personal bibliographic management software program to:
- Save and organize references
- Format citations and create bibliographies in Word or WordPerfect documents
- Share libraries with your collaborators

MyNCBI

QUOSA
QUOSA is a software tool that allows users to:
- Search PubMed, OVID databases, Web of Science and Google
- Retrieve full-text articles after search is complete
- Sync articles with EndNote citations
- Organize, analyze, share and re-use collected articles and documents
EndNote

EndNote is a personal bibliographic management software program to:
- Save and organize references
- Format citations and create bibliographies in Word or Word Perfect documents
- Share libraries with your collaborators
QUOSA IM is a software tool that allows users to:
- Search PubMed, OVID databases, Web of Science and Google
- Retrieve full-text articles after search is complete
- Sync articles with EndNote citations
- Organize, analyze, share and re-use collected articles and documents
Information Management Services

- Assist in setting up and using tools to retrieve, store, organize, and analyze information

- Document scholarly output of individuals and departments (journal impact factors, impact of individual articles, etc.)

- Collect citations, prepare in-text notes, create bibliographies
